

How to make a Wish Boat

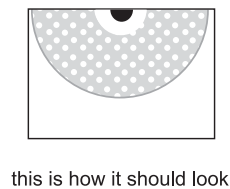

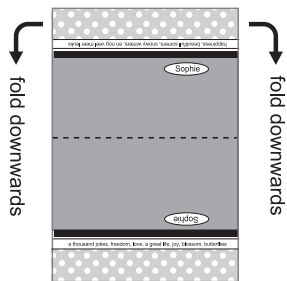

For one boat you need: pen or fine feltpen, 1 pair of clean hands, 3-4 minutes of time.

Tip: for a live demonstration you can also check www.youtube.com, search term 'folding paper boat'

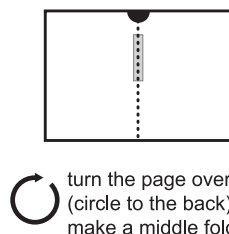

1 WRITE YOUR WISH - SEE BACK

Give the boat a name & write a text/wish along the rail.
See example on the back of this sheet.

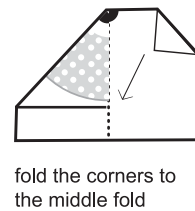

2 HOW TO FOLD - once you have written your text you can start folding (see below)

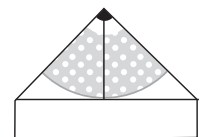

this is how it should look

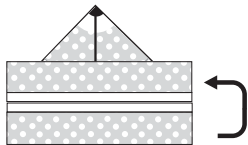

turn the page over (circle to the back), make a middle fold

fold the corners to the middle fold

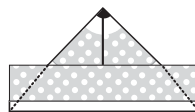

this is how it should look

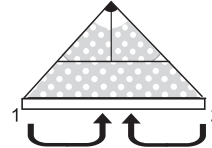

fold the lower strips up both front and back

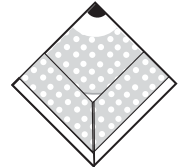

this is how it should look

fold the front & back corners inside

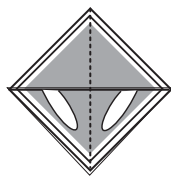

open up the bottom and line up the 2 points towards each other (1 & 2)

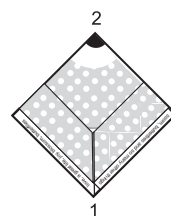

folded flat this is how it should look

fold on the front point 1 to point 2

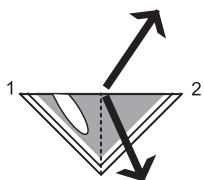

this is how it looks now

turn your piece over and repeat the previous

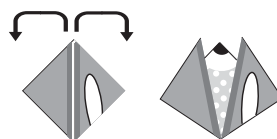

this is how it looks now

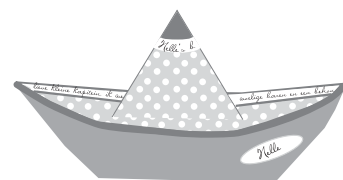

pull the horizontal opening apart and fold points 1 and 2 together

this is how it looks now

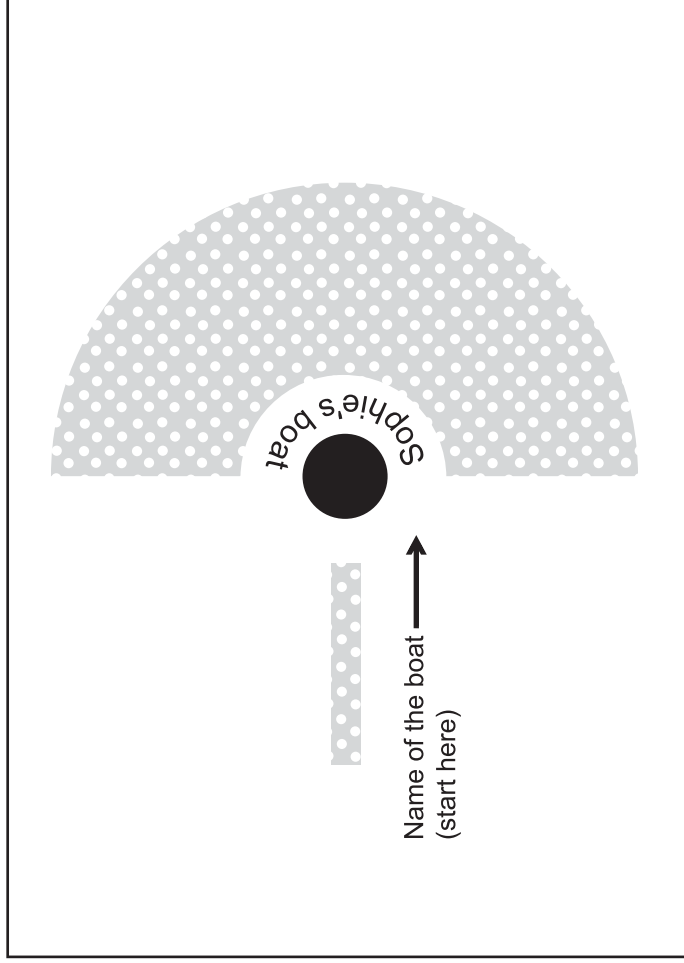

pull the middle points outwards and..... there is your boat!

form the boat by making room with your hand under the boat, so you get a nice high centre part and spread the sides out

Give the boat a name, which will appear in the centre part of your boat.

LOOK: follow the example below.

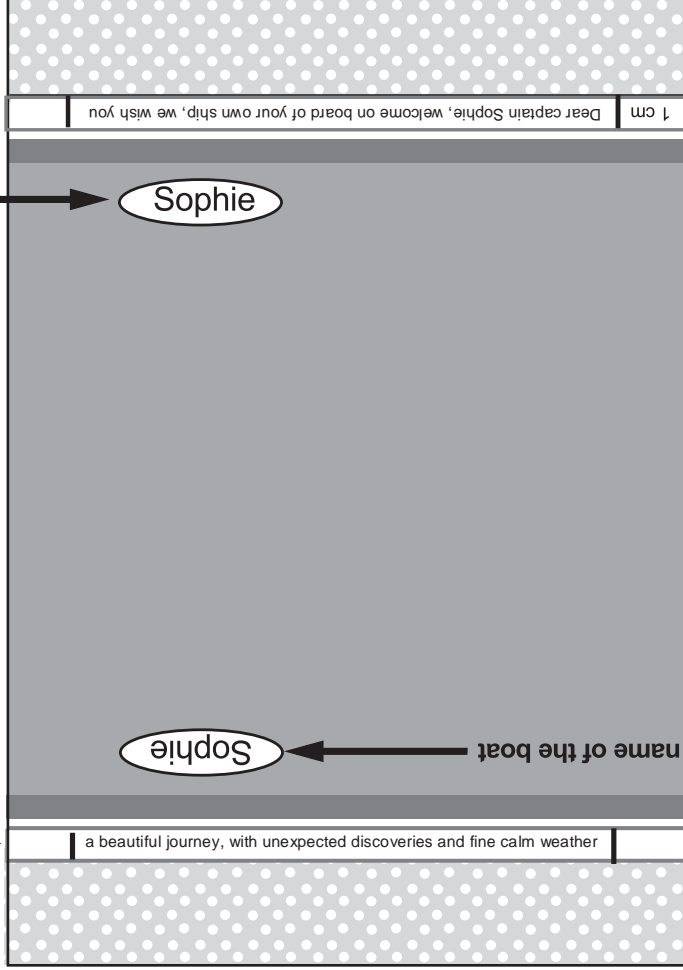

A

- Write also names on the bow (both sides)
- Write text/wish along the railing (remember you have 2 sides), start and finish 1 cm from the edge.
- Please note:** some of the text/wish has to be upside down! See the example below
